Ken should probably clear with Valmichael and Donn before any presentation is given to the Community Group. The PRPs are also disputing the stipulated penalties for noncompliance with the AOC.

Ok, thanks. I was thinking about the schedule also. I may have a couple of items to add to the agenda. Perhaps we can finalize that by end of week. I need to see what Ken has also. Do you all want to have that earlier discussion? Otherwise the usual 9:30 time is fine. I want to be sure everyone has time to get there. The Lunch plan sounds good.

Hope everyone is well.

I wanted to see if we could plan for internal EPA/HC meetings as we have done in the past. I can move the CAC meeting to 10 and allow time for us to talk 9-10. Would that work?

Also, Ken called and wanted to have an item for an update on site implementation activities. David Keith would be there to make the presentation. I think it is a good idea and gets everyone in the loop like the BIG meetings we used to have. Ken is going to call Donn to but wanted to give you a heads-up. Let me know if you see problems with that. And let me know, if there are items you would like on the agenda from EPA point of view. Another item was from Ken to have a discussion on how often CAC members would like an update on site activities and how much information/detail? I will draft an agenda and send it to you, Donn, to look at.

3rd thing - Since we have a little bit of a longer time with HGAC meeting starting at 2:30, I propose a lunch and whoever can make it from the EPA, companies and us at Treebeards. That is good food, cafeteria style and easy.

I will touch base with Barbara also on where things stand. I understand the revised work schedule is still not signed.

Let me know what you think.
